Summary

Computer Science graduate aspiring to begin a career in **Java Full Stack Development**. Building hands-on projects with **Java, Spring Boot, MySQL, REST APIs, and ReactJS** while developing a strong foundation in **JPA, Hibernate, SQL, and backend development**. Quick learner with a genuine interest in solving problems, learning new technologies, and contributing to real-world software projects.

Work Experience

Web Development Intern

2024–2025

Assam Electronics Development Corporation Ltd.

Wallpaper Website | *Laravel, HTML, CSS, JavaScript, MySQL*

- Developed and deployed a full-stack web application using **Laravel, HTML, CSS, JavaScript, and MySQL**, enabling users to browse, search, and download high-resolution wallpapers through a category-based management system.
- Integrated **MySQL** database solutions with Laravel backend functionality to manage wallpaper content, category classification, user interactions, and secure file download operations.
- Implemented scalable application architecture, intuitive navigation, and UI/UX practices to improve accessibility, user engagement, and overall application usability.
- GitHub: **Wallpaper Website Repository**

Projects

Smart Job Portal

In Progress

Java 21, Spring Boot, Spring Web, Maven

- Currently developing a full-stack **Smart Job Portal** using **Java 21 and Spring Boot** to support job seekers, recruiters, job postings, and application management.
- Building a modular backend using **Spring Boot REST APIs** with a layered architecture consisting of controllers, services, and data-access components.
- Implementing backend modules incrementally with **MySQL, Spring Data JPA, Hibernate, Spring Security, JWT authentication, and ReactJS** as part of the full-stack development roadmap.
- Designing database-driven features for **user management, job posting, job search, applications, recruiter workflows, and administrative operations**.

Complaint Management System

Aug 2025–Feb 2026

Java, Servlets, JDBC, MySQL, HTML, CSS

- Developed a web-based **Complaint Management System** using **Java Servlets, JDBC, and MySQL** for complaint registration, user management, and administrative operations.
- Implemented **user authentication, registration, login, logout, and session management** with separate user and administrator workflows.
- Integrated **JDBC with MySQL** to perform database connectivity and **CRUD operations** for managing user and complaint records.
- Implemented servlet-based **HTTP request and response handling** for user login, complaint submission, dashboard operations, and administrative management.
- Developed database-driven functionality using **SQL, JDBC, and relational database concepts** for persistent storage and retrieval of application data.
- GitHub: **Complaint Management System Repository**

Technical Skills

Programming Languages: Java, Python

Java Technologies: Core Java, OOP, Collections, Exception Handling, JDBC, Servlets, Spring Boot

Web Technologies: HTML, CSS, JavaScript, ReactJS

Backend & APIs: Spring Web, RESTful APIs, JDBC

Databases: MySQL, Oracle SQL

Tools & Platforms: Git, GitHub, Maven, Postman

Operating Systems: Windows, Mac OS, Linux

Education

Diploma in Computer Engineering

2019–2022

Nowgong Polytechnic

CGPA: 9.0

B.Tech in Computer Science and Engineering

2022–2025

Jorhat Engineering College

CGPA: 7.56

Certifications

- Oracle Cloud Infrastructure 2025 – AI Foundations Associate (Oracle)
- Java & MySQL (Udemy)
- Cyber Security Certification
- AI Essentials (Google)

Achievements

- Google Developer Students Club Member (2022–2025)
- Secured Rank 32 in the All Assam Chess Championships
- Badminton Champion – Phoenix College Fest (2024)
- Gold Medalist in Table Tennis – District Championships
